

## Insight Software Support for Indigo200

Vaisala Insight PC Software is a configuration utility for Vaisala Smart Probes and other supported devices. Insight natively supports the new Indigo200 transmitter, however, the embedded help guidance has not yet been updated. Indigo200 help guidance will be included by default in all future versions of Insight.

Insight PC Software can be downloaded from: <https://www.vaisala.com/insight>.

### Adding the help files manually

The Indigo200 help files can be added to any installation of Insight 1.0 by copying the files to the correct location. Following the steps below.

1. Download the [Insight Software Help for Indigo200.zip](https://www.vaisala.com/insight) file from: <https://www.vaisala.com/insight>

2. Unzip the file to the computer on which Insight is installed
3. Copy **all 40 files** in each desired language folder to the correct installation folder as shown below (default installation folders shown, adjust as needed).
4. English
  - a. From: ...\\Insight Software Help for Indigo200\\English
  - b. To: C:\\Program Files\\Vaisala\\Vaisala Insight\\insight\\locale\\en\\help
5. Japanese
  - a. From: ...\\Insight Software Help for Indigo200\\Japanese
  - b. To: C:\\Program Files\\Vaisala\\Vaisala Insight\\insight\\locale\\ja\_JP\\help
